

Super Bright flashlight in the worldwide market.

~~ 3W LED, Rechargeable battery, Dual mode as a Flashlight or for Cycling, Elegant outlook and Handy torch. ~~

3W High Power Bike Lamp

For Biking, Camping, Outdoor Activities, Building & Automobile Maintenance, Black Out Days, Stress Signaling

• focused

• unfocused

(Left: ours, Right: others) Unbeatable Brightness, See The Difference

The bike lamp generates high brightness focused light, which makes it perfect for night biking. With its compact design, efficient power consumption and stress mode function, the lamp is also suitable for outdoor activities, home & automobile maintenance and all kind of usages.

当自転車用ランプは特殊な光学パーツを組み合わせ、非常に明るく散乱しない集中した光束を発生させることができ、夜間走行用に最適の安全照明です。軽量化設計で、防水、低消費電力、そして救急モードを備え、各種アウトドア活動、車の修理、家庭での停電等の用途にも適します。

▲ Our bike light off (Dark space)

▲ Our bike light on (you see clear road even the clear colors)
_ Homogeneous bright light

Features:

- Focused high brightness light
- Portable design suits bicycling and outdoor purpose
- Extra long distance usage
- Low power consumption

Specification:

- Maximum Luminous Flux 130 lumens
- Optical System Focusing Lens
- Effective Distance 100 meter
- Battery Lasting 7 hrs 20 min @ max Brightness
Max 15 hrs (SOS Mode 40 hrs)
- Adjustment 3 Steps Adjustable Brightness
- Life Span 50,000 hrs @ 320 mA
- Housing Water Resistant
- Dimension (mm) 105 (L) x 44 (W) x 29 (H)
- Weight 150g
- Power Supply Built-In NP-60 1200 mA
Rechargeable Battery

Package Contents:

- Flash Light
- Bike Mount Adaptor
- Rechargeable Battery
- 5V DC, 1A Charging Adaptor

Strengths: Optics+ Optical Engine+ Digital Image
